The Program

The Graduate Industry Placement program is coordinated through the University Engagement Branch. It offers a structured workplace experience for graduate students. Students are placed with an industry under a collaborative sponsored agreement for 12 months to undertake and complete a project(s) as directed by the industry supervisor while continuing to study for an appropriate University of Adelaide Masters Degree.

Benefits for Students

• Stipend scholarship payments for project activities of up to $33,000
• Links with a company to gain valuable industry experience
• Enhancement of skills through relevant real-world project
• Development of links with a company.

Collaborating Industry Organisation

The Defence Science and Technology Organisation (DSTO) is part of Australia's Department of Defence. DSTO is the Australian Government’s lead agency charged with applying science and technology to protect and defend Australia and its national interests.

Project No and Project Title

Project Number: GIP LOD 13 – Developing databases and analytic tools for Land equipment sustainment

Project Objective

This project is aimed at developing databases and analytic tools for analysing Land equipment sustainment.

1. Database design
