
The Charles EM Pearce OR Prize

PRIZE RULES

Establishment

This prize is funded by the School of Mathematical Sciences.

Value

The value of the Prize will be \$200.00 per year payable by the School of Mathematical Sciences, or such other amount as the School of Mathematical Sciences shall from time to time determine.

Eligibility

The prize will be awarded annually by the University to a student who meets the following criteria.

- a) The student must have completed two of the following Level III Applied Mathematics courses in the field of Operations Research: APP MTH 3001 Applied Probability III, APP MTH 3014 Optimisation III and APP MTH 3016 Random Processes III.
- b) The student must have completed at least one of the above courses in the year for which the prize is awarded.

Selection of Candidate

The Head of the School of Mathematical Sciences or nominee will award the prize to the student who achieved the highest average mark in two of the courses specified above.

If there is more than one candidate of equal merit, then the prize shall be shared equally. No one student shall receive the prize more than once.

Variations

The University may vary the rules from time to time in a manner consistent with the original objectives of the prize.
