NOTES

* STUDENTS WITH PRIOR PROGRAMMING EXPERIENCE

Do not need to complete ENG 1002 Programming (Matlab and C) and can replace it with a level I Elective. If it is replaced, the following courses must be completed in the order, first COMP SCI 1102, then COMP SCI 2103 and then COMP SCI 2201. However, these courses and COMP SCI 2000 may be completed one semester earlier than shown above.

** Students must complete either MATHS 1004 Mathematics for Data Science or MATHS 1012 Mathematics IB, but may not present both towards their degree.

** To enrol in MATHS 1012 Mathematics IB students must first pass MATHS 1011 Mathematics IA, this is presented as a level 1 elective. Entry into MATHS 1011 Mathematics IA requires SACE Stage 2 Specialist Mathematics, or a pass in MATHS 1013 Mathematics IM.

Electives must include Broadening Electives to the value of 9 units that are not from the following subject areas: COMP SCI, MATHS, PURE MTH, APP MATH, STATS.

Electives may be any University of Adelaide Undergraduate course for which the student meets the pre-requisites. Please check the availability, restriction and incompatible section on the course planner for elective choices.

How to choose an elective course in your area of interest? Please refer to the steps via the link: <https://ecms.adelaide.edu.au/study-with-us/student-support/enrolment>
