
The Robert Warner Medal

PRIZE RULES

Establishment

In 1999, the Department of Civil and Environmental Engineering established this prize in memory of Professor Robert Warner with donations of \$10,000 from alumni and friends of Professor Warner.

Professor Warner retired from the Chair of Civil Engineering at the University of Adelaide after 20 years of service. Professor Warner was only the fifth professor in the history of the Department of Civil and Environmental Engineering. His contributions to the profession of civil engineering particularly in the field of concrete structures, has been enormous. This was recognised by the Institute of Engineers, Australia by the award of the inaugural John Connell Gold Medal in Structural Engineering.

The capital for the prize is held in perpetuity resulting in the minimum annual prize distribution paid from the Endowment Fund.

Value

The value of the Prize will be \$500.00 per year, or such other amount as the University shall from time to time determine provided that the value of the prize does not exceed the annual distribution of interest available from the Endowment Fund¹.

In addition, the successful candidate will also be awarded an inscribed medal named 'The Robert Warner Medal' provided and funded by the School of Civil, Environmental and Mining Engineering.

Eligibility

To be eligible for the prize, candidates must be enrolled in the Bachelor of Engineering (Honours) (Civil and Structural) degree program or associated double degrees with a Bachelor of Engineering (Honours) (Civil and Structural) component in the year for which the Prize is awarded.

Selection of Candidate

The Head of the School of Civil, Environmental and Mining Engineering or nominee will award the Prize to the student who obtains the best result in the assessment of the Level III course CEME 3002 Reinforced Concrete Design.

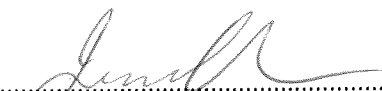

If there is no candidate of sufficient merit in a given year then the prize will not be awarded in that year and the money will be used in subsequent years. In this case, provision may be made for multiple prizes in subsequent years.

If there is more than one candidate of equal merit, then the prize shall be shared equally.

Variations

The University may vary the rules from time to time in a manner consistent with the University's legal obligations and policies.

Approved:

.....
Interim Deputy Vice-Chancellor & Vice-President
(Academic), Professor Jennie Shaw

Date: 22.3.21.....
