

## The Institution of Radio and Electronics Engineers (IREE) Prize in Microelectronics PRIZE RULES

### Establishment

In 1990, the Institution of Radio and Electronics Engineers (IREE) donated \$1,500 to the University to establish a prize in microelectronics. The fund was augmented by the Faculty of Engineering, Computer and Mathematical Sciences to provide the minimum required amount for an endowed prize.

The capital for the prize is held in perpetuity resulting in the minimum annual prize distribution paid from the Endowment Fund<sup>1</sup>.

### Value

The value of the Prize will be \$500.00 per year, or such other amount as the University shall from time to time determine provided that the value of the prize does not exceed the annual distribution of interest available from the Endowment Fund.

### Eligibility

To be eligible for the Prize, students must be enrolled in the course ELEC ENG 4053 Digital Microelectronics in the year for which the Prize is awarded.

### Selection of Candidate

The Head of the School of Electrical and Electronic Engineering will award the Prize to the student who achieves the highest aggregate mark in the course ELEC ENG 4053 Digital Microelectronics.

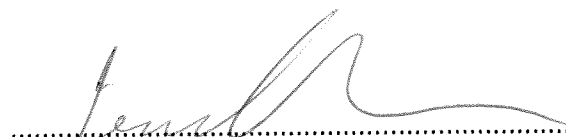

If there is no candidate of sufficient merit in a given year then the Prize will not be awarded in that year and the money will be used in subsequent years. In this case, provision may be made for multiple Prizes in subsequent years.

If there is more than one candidate of equal merit, then the Prize shall be shared equally.

### Variations

The University may vary the Rules from time to time in a manner consistent with the University's legal obligations and policies.

Approved:

  
.....  
Interim Deputy Vice-Chancellor & Vice-President  
(Academic), Professor Jennie Shaw

Date: 22-3-20
